

## Student Class Make-up Hours Assignment

### Tractor Safety / Farm Safety in the News

Find four (4) newspaper articles, magazine stories, or web articles that tell of different types of farm accidents (tractor, road, grain, children, animals, electrical, fires, ATV, etc).

Summarize each article, identifying the **hazards or mistakes that caused** these accidents.

1. Use 12 point font
2. Please site your sources. (That means give me the URL for each article) at the top of the page.
3. Make sure you do not “copy” the article, but use your own words.
4.  $\frac{3}{4}$  of a page (that is a minimum of 2 paragraphs, with 4 sentences in each paragraph).
5. If you would like to do an oral report with a slide show – I have no problem with that. It needs to be approximately 4 minutes for all 4 articles.

This assignment must be turned in by the last day of class (prior to doing the written test).
