

Student Project #1

Farm Safety Interview

Conduct an interview with an individual in your community that has been involved in a farm accident. We are going to ask you to video tape the interview and show it during class as your presentation. The interview should be approximately 5 minutes in length, and you can come to class prepared to “use the share button on the Zoom” and share it with class.

The interview should tell of the person’s account of the accident and then discuss how their accident affected their life. What are your feelings about this accident – or a similar one that maybe has affected your life?

Assignment due on or before the last class. Turn it in at class.

This assignment must be turned in to receive your certificate.
